

Alcoscan iBLOW10

Advanced rapid screening Alcohol Breathalyzer for professional usage with top light and magnet holder. The iBLOW10 can also detect alcohol in liquids and is therefore a very handy device for police and security services.

The iBLOW10 alcohol breathalyzer is an advanced device with SURACELL™ technology. With this alcohol-tester you can test up to 12 people per minute. The result can be displayed in numbers as well as with PASS/FAIL or RED/GREEN.

This device is ideal for police forces, high schools / universities or security companies. iBLOW10 will be off added value at any event where many people need to be checked for alcohol in a short period of time. The device is easy corona safe to use with the help of a straw allowing a one-and-a-half-metre distance to be maintained.

Main properties:

- Electrochemical SURACELL™ sensor
- Special mouthpiece for passive or rapid tests. No nozzle required
- Manual test function, e.g. to measure alcohol in liquids
- Notification when it is too cold or too hot to use the device
- Top light in white, green, red, red/white depending on status and result
- Can be used with AA rechargeable batteries
- USB-PC connection for uploading test results to any pc or laptop
- Display with result in numbers or with Pass/Low/High notification
- Built-in magnet for easy placement on vehicles
- Message when calibration is required, including grace period, or when batteries need to be replaced

Scope of delivery:

- Cardboard box
- Three interchangeable mouthpieces
- USB PC cable
- Wrist Cable
- 6 x AA alkaline batteries
- Manual (English)

Optional:

- Available in luxury aluminium case packaging
- Silicon Protection Sleeve

Specifications:

Sensor	SURACELLTM fuelcell (electrochemically)
Unit of measurement	BAG: ‰, mg/100ml, %BAC or AAG: mg/L or others
Range	0,00 - 5,00
Dimensions (hxbxd in mm)	276x44,5x44,5
Weight (g) incl. batt.	370
Working temperature	-5°C tot 40°C
Storage temperature	-10°C tot 50°C
Breath sampling	Yes, automatic or manual
Check of breath sample	Yes
Warming-up time	-
Breath sampling time	1 sec
Analysis	within 2 seconds at 0,0 ‰
Display	1.77" FND
Memory	> 10.000
Display # tests	Yes
Batteries	6 x AA 1,5V alkaline
Battery-indication	Yes
Automatic power off	Yes
Printer	No
PC-connection	Yes, USB-cable included
Mouthpieces	3 extra cups
Calibration interval	12 months or 5000 tests (can be adjusted through s/w)
